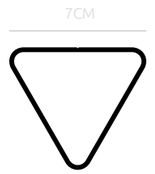
HEIGHT 219CM X WIDTH 136CM · COLOR GRAPHITE

THE ULTIMATE SPACE DIVIDER

The Facet freestanding room divider is perfect for dividing the space in rooms. It does this stylishly through capturing and reflecting light. The individual geometric diamond shapes can rotate independently, creating beautiful patterns of light and shade. You have absolute freedom to arrange amazing patterns, pivot the diamonds to catch the light or flip them to create more transparency! It is a wonderful designer piece that does not only look stunning in its own right, it divides spaces elegantly. The Facet freestanding room divider is ideal for your home, commercial/public spaces, hotels, restaurants, offices, showrooms, retail stores or reception areas.

MASSIVE RANGE OF DIMENSIONS

As the Facet freestanding room divider is modular, it is available in 30 different sizes. The frame is constructed from high-quality slender triangular sections just 7cm in width. This shape lends the frame its elegance but also its robustness.



The frame stands on a thin 3mm aluminum flat base. The base is available in two sizes, 68cm and 102cm, to match the dimensions of your divider. The widest Facet freestanding room dividers have two bases.

PATTERNS

Facet's unique adjustable design allows you to adapt the way it looks in your space. The fact that you can customize your Facet freestanding room divider means you have absolute freedom to arrange amazing patterns, catching the light or flipping the diamonds to create more transparency. You can adjust the Facet to suit your exact needs. The individual geometric diamond shapes can rotate independently, creating beautiful patterns of light and shade. Even a slight adjustment to the angle of the diamonds will create unique patterns and effects. Control how much can be seen through the screen and let more or less light through.

SCREEN COLOR COLLECTION

Facet is available in a beautiful range of contemporary sophisticated colors. The facets of the geometric diamond shapes catch the light at different angles, creating an attractive array of different shades of the screen's color.

INSTALLATION

The Facet freestanding room divider can be placed anywhere in your space. It comes with a clear 6-step assembly instruction. The smart modular design makes assembly and installation very simple.

SUSTAINABLE & DURABLE MATERIALS

Facet is designed as a sustainable product. The screen comprises high-quality, strong and durable injection molded materials to ensure that everything we create will really last. The smart click-together system not only makes it simple to assemble, but also little effort to dismantle. Facet is fully recyclable, fire retardant, UV resistant and anti-static.

FREE SHIPPING

Bloomming products are available worldwide and shipping is free. Our partner FedEx will deliver your divider fully insured directly to your home or project location.

ADDITIONAL OPTIONS

CUSTOM SCREEN COLORS

If our range of stock colors does not meet your requirements, we can supply almost any NCS or RAL color upon request.

Lead time **9 weeks**

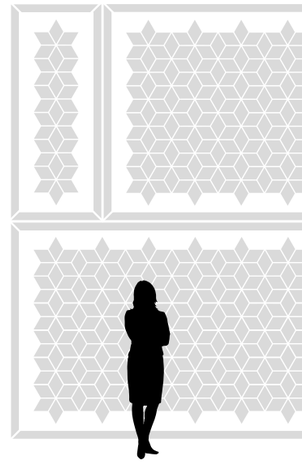
Price **€ 690 for each color**

FLOOR ATTACHMENT

If you prefer to fasten the frame directly to the floor without the use of the base, please mention this when ordering and we will make the necessary preparations.

LARGE WALLS

We can supply screens up to 258cm in height and 238cm in width. If you want to create an even larger wall covering, several screens can be interconnected.



HANGING OUT!

If you like our Freestanding room divider but you would love Facet even more if you could suspend it from the ceiling, please check out our Facet suspended room divider here: **www.bloomming.com**
